

Caterpillar on a leaf

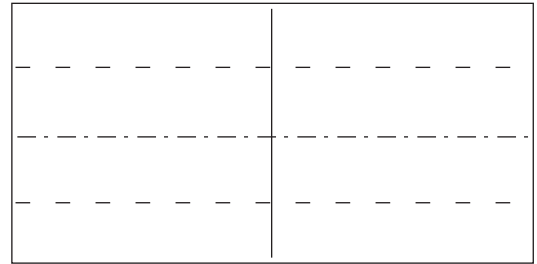

by Eugeny Fridrikh

1.

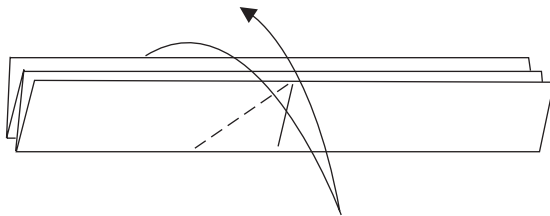

Start with 1:2 rectangular sheet of paper colored green/white. White side up.

2.

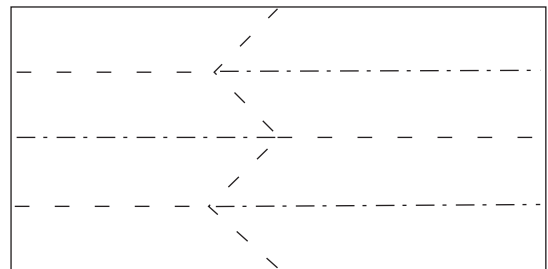

Precrease valley and mountain folds, then make the zig-zag.

3.

Precrease and return to step 2.

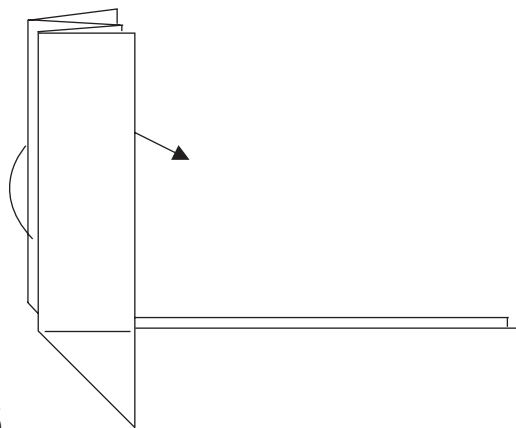

4.

Form the model, using the creases were made before.

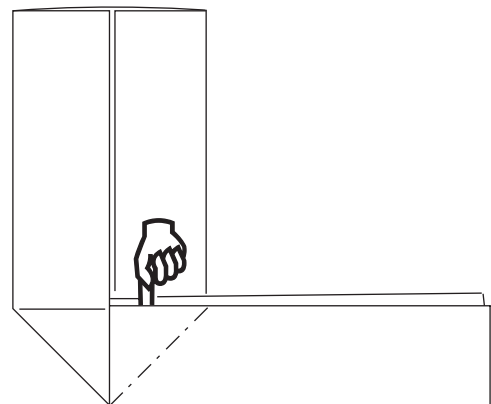

5.

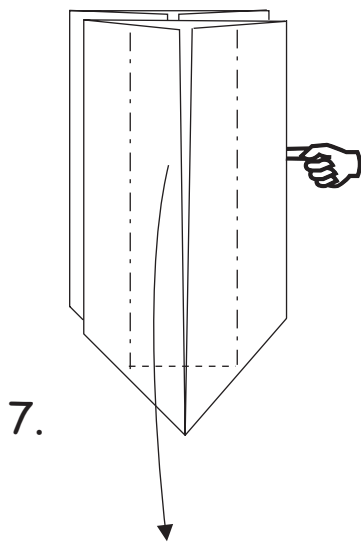

Turn back layer.

6.

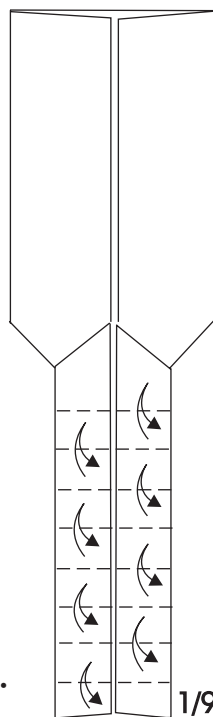

Squash-fold.

7.

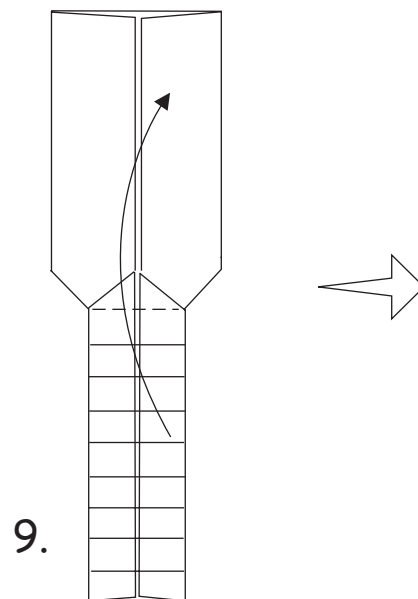

Petal fold with one layer.

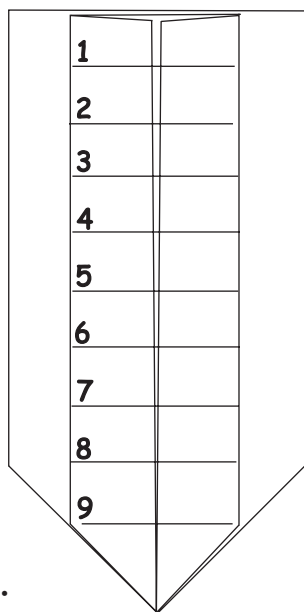

8.

1/9

Divide the strip on 9 parts.

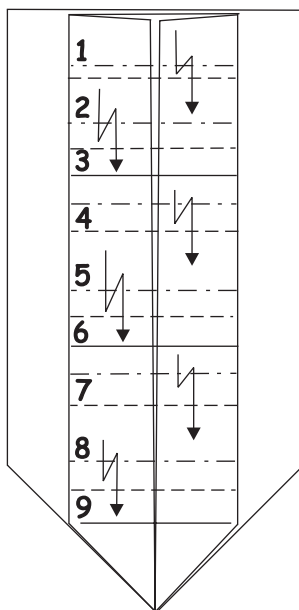

9.

10.

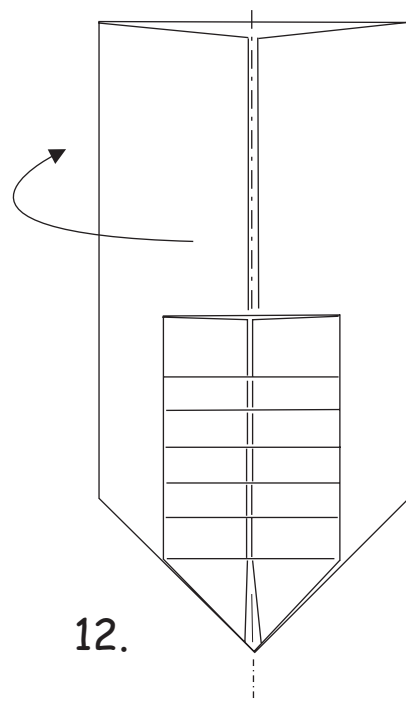

Note the 9 rectangles

11.

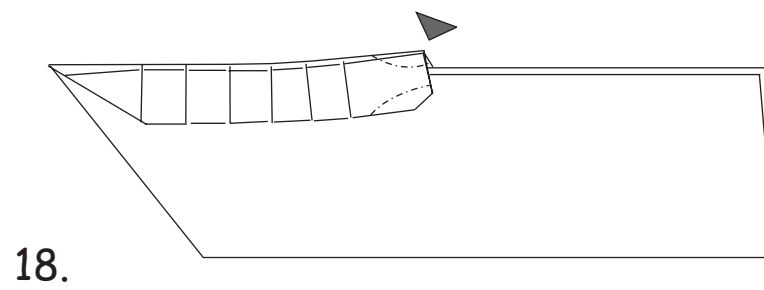

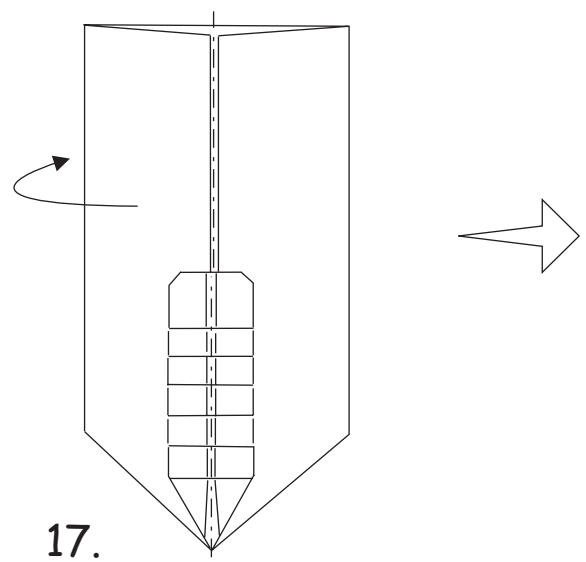

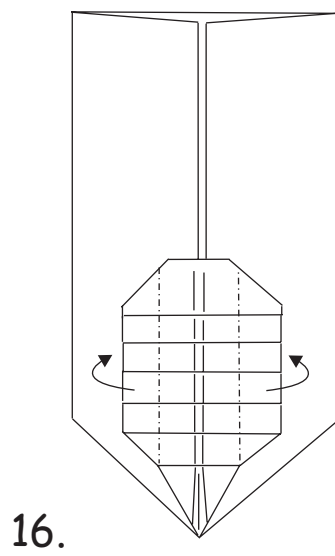

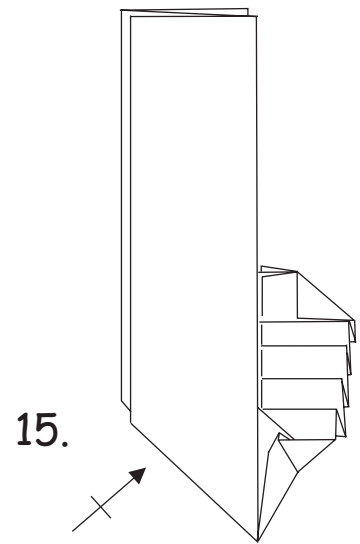

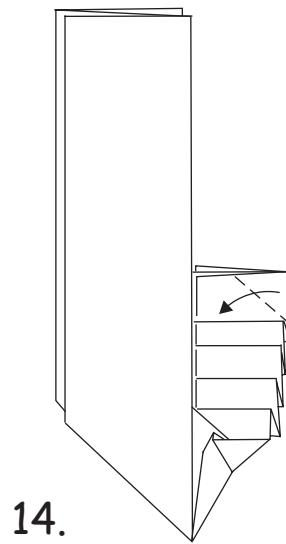

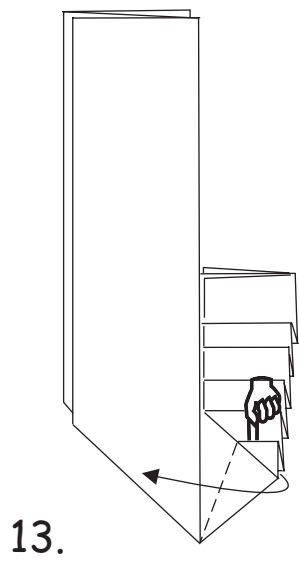

Pleat.

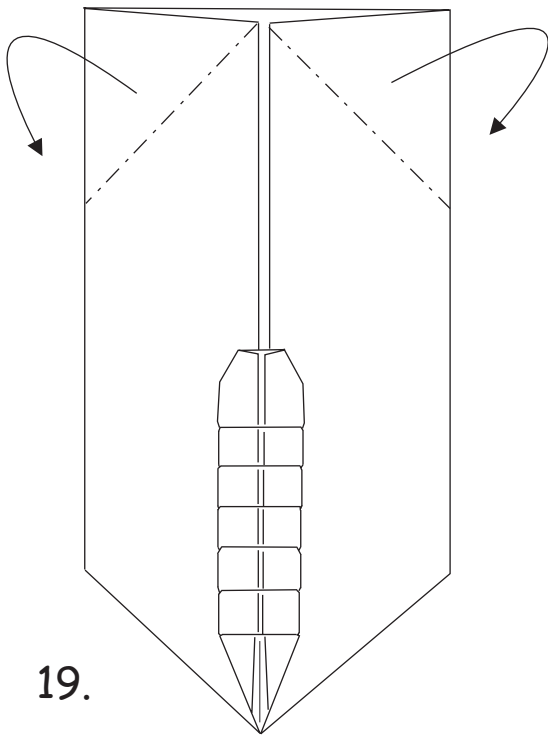

Keep attention: see on the figures!

12.

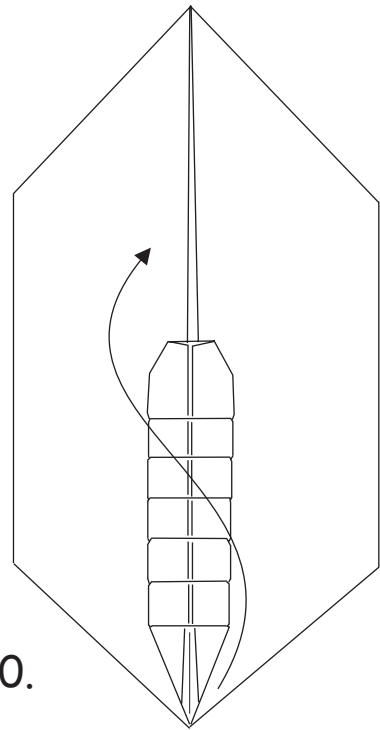

Fold back layer in half.

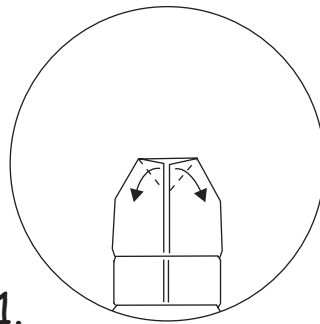

19.

Back air-plane fold.

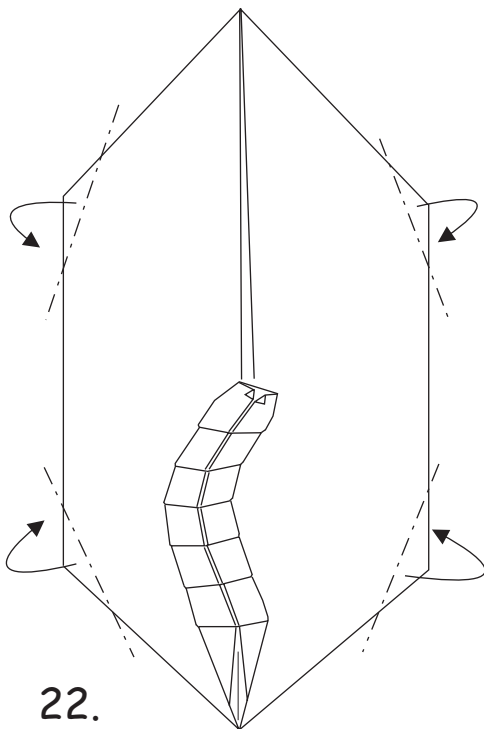

20.

Curve the caterpillar's body.

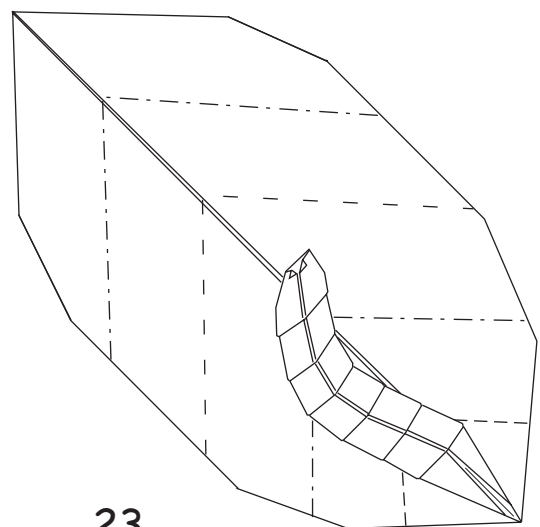

21.

Making the eyes.

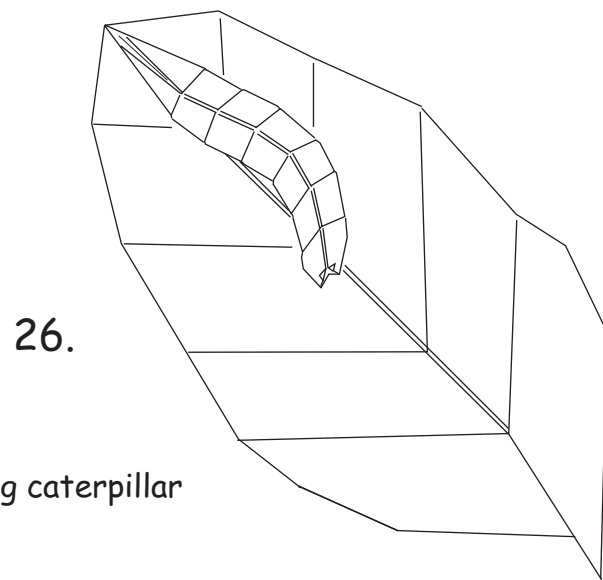

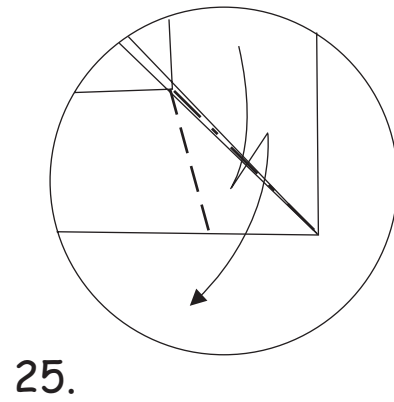

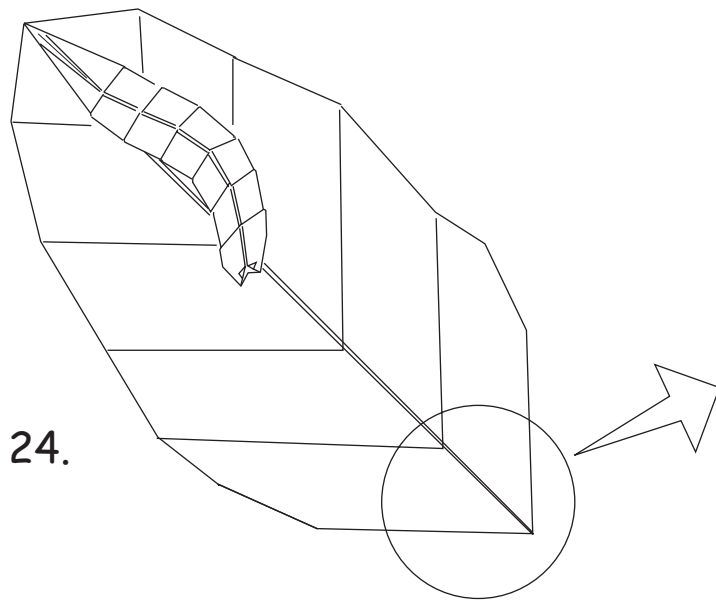

22.

Form the leaf's shape.

23.

...The same too.

The leaf with crawling caterpillar
completed!
